

Keen Black Men's Loafers

Keep your feet stable and body aligned with Keen Footwear. Are you keen to knee, lower back, or foot pain? Does your job require standing up and walking much of the day? Keen Men's Black Loafers provide the structure for your high arch, its sturdy black leather perfect for dress code. Ridged soles give traction on any work surface. Put on a pair of Keen Men's Black Loafers for simple, elegant, year-round structure to dress as great as the rest of your team.

Aetrix Men's Orthotic Inserts

High arches cause lots of stress. Why not slip comfort plus structure under the little piglets in your shoes? Aetrix lends affordability with high quality. Memory foam built specifically to balance squish as well as molding to your specific need. An arch bubble raises the center of your foot to prevent plantar fasciitis, plus strengthen your mid foot, gives another level of comfort. Give it a try for up to 90 days!
